

4-Year Sample Course Sequence, SLHS Campus Change Students: Option 2

This is one example of many possible course sequences for SLHS majors. Remember to try and take PHYS before SLHS 2156Q. This sequence is suggested if you are able to take PHYS at a regional campus. If not, Option 2 sequence is more appropriate. It is also suggested you complete approximately 30 credits per academic year to graduate in 4 years.

Fall Freshmen	Credits
ENGL 1010, 1011, or 2011	4
Any course, any level	3
Gen Ed A	3
Gen Ed B	3
